

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

---

A 1  
1 **Claim 1** (original): A portable cellular phone comprising:  
2 a music data retrieving means which retrieves music  
3 data;  
4 and  
5 a downloading means which downloads an application  
6 software corresponding to a music data format defined in  
7 connection with the music data from a remote server in  
8 response to user's selection.

1 **Claim 2** (original): The portable cellular phone according to  
2 claim 1, wherein the retrieving means retrieves the music data  
3 from a storage medium.

1 **Claim 3** (original): The portable cellular phone according to  
2 claim 1, wherein the retrieving means retrieves the music data  
3 via a communication means.

1 **Claim 4** (original): The portable cellular phone according to  
2 claim 1, further comprising an application software executing  
3 means which executes the application software in association  
4 with the music data in the cellular phone.

1    **Claim 5** (original): The portable cellular phone according to  
2    claim 4, wherein the application software executing means  
3    executes a plurality of pieces of application software in  
4    parallel simultaneously in association with the music data.

A' 1    **Claim 6** (new): A method of operating a portable cellular phone  
2    comprising the steps of:  
3        the cellular phone retrieving music data;  
4        a user selecting an application software corresponding  
5    to a music data format defined in connection with the music  
6    data; and  
7        downloading the application software from<sup>9</sup>~~a~~ remote server  
8    to the cellular phone.

1    **Claim 7** (new): The portable cellular phone according to claim  
2    1, wherein the downloading means downloads the application  
3    software via a wireless communicating means.

1    **Claim 8** (new): A portable cellular phone comprising:  
2        a music data retrieving means which retrieves music data;  
3        a downloading means which downloads an application  
4    software corresponding to a music data format defined in

5 connection with the music data from a remote server in  
6 response to user's selection; and  
7 an application software executing means which executes  
8 the application software in association with the music data in  
9 the cellular phone;  
10 wherein the application software executing means executes  
11 a plurality of pieces of application software in parallel  
12 simultaneously in association with the music data.

1 **Claim 9** (new): The portable cellular phone according to Claim  
2 8, wherein the retrieving means retrieves the music data from  
3 a storage medium.

1 **Claim 10** (new): The portable cellular phone according to Claim  
2 8, wherein the retrieving means retrieves the music data via a  
3 communication means.
